FLICK-DRY INITIATIVE

Wash. Flick-dry.

1 Wash

Wash your hands
with soap and water.

Rinse well before flick-drying.

2 Flick-dry

Gently flick excess water off. Then dry using a hand dryer.

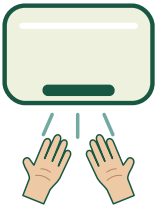

2a Flick gently

Flick gently 12 times
into the sink.

Keep splashes contained.
Skip if unsafe.

2b Dry completely

Use the hand dryer.

Stop when your hands feel dry.

Less water to dry can mean less dryer time.

Flick first. Dry smarter.
